	Comparison shows that previous data * approach facts.
	b. This report confirms previous information * on the main plant buildings as to location and therefore is concidered valuable. Previous sketch * and attached photograph strongly agree on the layout of those buildings which can be identified on the photograph. It is thus condluded that the heavily damaged plant was actually reconstructed in its original shape.
	2 mexes: (1) terial photograph of the stalin rachine rectory
	(2) Sketch of the St.lin . Schine Mactory.
